## VZ型真空土練機

陶磁器、碍子業界に圧倒的実績と信用を誇る低圧型真空土練機です。豊富な機種をラインナップしているため、用途に応じた最適機種の選択が可能。大径円柱、パイプ等の大容量押出に偉力を発揮します。 原料替え、分解、清掃、組付が簡単なタイプも数機種、製作しています。

The Vz is a low pressure type de-airing machine that boasts overwhelming results and confidence in the pottery and insula-tor industries. Since an abundance of types are available, it is possible to choose one that best answers your needs. The VZ demonstrates the capacity to handle large volume extrusion for large diameter cylinders and pipes. There are many types that are simple to disassemble, clean, and reassemble, and that make changing raw materials easy.
